

**Lafayette After School Enrichment
Spring 2025**

April 15, 2025 through May 21, 2025

**(NO MAKEUPS FOR CANCELLED CLASSES & NO REFUNDS AFTER
REGISTRATION CLOSSES)**

Questions? Email: lafenrichment@chathampto.com

Please Read Before Registering:

~ All AM classes will run from 8:00 am to 8:55 am. All PM classes will run from 3:35 to 4:30 pm.

~ For AM classes: please drop off your child on time.

~ For PM classes: please pick up your child on time. Late pick-ups will result in withdrawal from the class with no refunds.

~ Please note that most ASE communication is made via email. The email address used is what's listed in your community pass account. If necessary, please update this information to receive class notices.

~ Please make sure to communicate your ASE pickup arrangements with your child.

~ ASE AM drop off will be at 8 am at the LAF lobby only.

~ ASE PM pickup will be at 4:30pm from the LAF lobby only.

~ If you are picking up your child, you must come to the LAF lobby to pick up your child. We do not allow children to leave the building for pickup at the circle in front of LAF, or in front of the CHS auditorium. It is a safety and liability issue.

~ ASE instructors/staff are not responsible for escorting your child out of the building for pick up. You must come to the front lobby to pick up.

~ Should your child have a temporary change of dismissal or be absent on their day of ASE, please call the main office to ask that they notify the ASE moderator.

~ For students walking home, please note that there *will not* be a crossing guard on duty.

~ There will be a site coordinator but there *will not* be a nurse on site.

~ Register at [CommunityPass](#)

CLASS DESCRIPTIONS

A.I. Explorers (TUES AM)

Students will explore fun, cutting-edge AI applications. Sessions will explore self-driving cars, discover the purpose of AI in the real world and get involved in hands-on activities.

****MUST BRING SDOC CHROMEBOOK TO CLASS****

*****TAUGHT BY... LAF's own Mrs. Cifrodella**

Fashion Forward! (TUES AM)

Calling all you fashionistas! In Fashion Forward, students in grades 3-5 dive into the exciting world of fashion design and illustration! They'll learn to sketch fashion ideas, create fashion characters, and use fabrics to bring their designs to life in their sketchbooks. Alongside designing, students can express their creativity by creating unique styles for themselves. This ASE class even includes a fun runway activity where students can showcase a unique creation of their own in a mini final fashion show! This program is perfect for young designers to build confidence, imagination, and style!

*****TAUGHT BY... LAF's own Ms. Collette**

I Heart Broadway! (TUES AM)

Join Miss Goodstein for "I Heart Broadway", A Musical Review! Join us as we bring to life classic Broadway hits from Annie, Newsies, Peter Pan, and Oliver! in a fun and energetic short musical series. You'll develop your vocal, acting, and dance skills while working together to create a performance that will be filmed and sent to families. Whether you're a seasoned performer or a beginner, this class will be a blast!

*****TAUGHT BY... LAF's own Ms. Goodstein**

Pickleball (TUES AM)

Pickleball combines elements of Tennis, Badminton, and Ping Pong. Discover how to hold the paddle, rally, serve, and score small sided games as we learn how to play this fun game, learning different skills and strategies in a safe and fun environment. We will provide all equipment.

*****TAUGHT BY... Chris Calveley from FC Futbol Foundation**

3D Structures & Design (TUES PM)

Students will embark on an exciting, hands-on design project where they will explore the principles of structures and forces. These projects will spark students' creativity as they design, build, and test bridges, towers, and other constructions.

***TAUGHT BY... CHS's own Technology Teacher, Jason Mariano

Cooking (TUES PM)

***4th & 5th ONLY**

Learn how to follow a recipe, measure ingredients, and use your creativity to cook different recipes! In this class, students will make different treats each week. Students will receive a recipe book at the end of the 6 weeks so that they can make them again for their families!

***TAUGHT BY... LAF's own Ms. Goodstein

Crochet (TUES PM)

This beginner-friendly crochet class introduces students to the art of crochet in a fun and engaging way! Over six weeks, students will learn basic crochet techniques, develop fine motor skills, and complete small projects they can proudly take home. Crochet fosters patience, creativity, and problem-solving skills, making it a great enrichment activity.

***TAUGHT BY... LAF's own Ms. Gaul

LEGO STEM Explorers: Build, Code, Innovate! (TUES PM)

Discover the excitement of STEM through LEGO Prime kits! In this hands-on after-school program, 4th and 5th graders will explore the basics of engineering, coding, and problem-solving while building and programming their own creations. Each session will spark creativity and critical thinking as students tackle fun challenges and learn to collaborate in a team environment. Perfect for curious minds who love to build, experiment, and innovate!

****MUST BRING SDOC CHROMEBOOK TO CLASS****

***TAUGHT BY... CHS's own Design & Technology Teacher, Julianna Ryan

Mock Trial (TUES PM)

While learning about legal concepts and persuasive arguments, teams will prepare and present "pretend" trials from the perspectives of both the prosecution and the defense. Students will be challenged to think and work independently and collaboratively and will play different roles each week (With costumes!) Kids will learn about courts and trials.

***TAUGHT BY... LAF's own Ms. Cifrodella

Outdoor Games (TUES PM)

The class is designed to get kids moving and having fun — all while soaking up the benefits of time outdoors.**

Each session includes a structured but low-pressure mix of:

Warm-ups – Stretching and light exercises to wake up the body.

Active Play – Each week we will play a fun group game (soccer, tag, capture the flag, kickball, relay races, etc.)

Cool down – Relaxed stretching to end on a calm note.

**Weather Permitting. Otherwise will be indoors.

***TAUGHT BY... CHS' Social Studies Teacher, Kirstyn Connors

Stop Motion (WED PM)

Lights, camera, action! Students bring their imagination to life by creating their very own stop-motion movies. Using Legos, action figures, small dolls, Play-Doh, and even flip-book style hand animation, students will learn the basics of storytelling, frame-by-frame photography, and animation techniques.

Each week, participants will work on developing characters, building sets, and crafting creative scenes. They'll take individual photos and assemble them into a stop-motion film, complete with music and sound effects.

***TAUGHT BY... Ms. Mills, Media Specialist at Franklin Elementary School, Summit

Harry Potter Book Club: Book 2 (WED AM)

***4th & 5th ONLY**

Step back into the magical world of Hogwarts as we dive into Harry Potter and the Chamber of Secrets! Over six weeks, we'll unravel mysteries, decode riddles, and face off against magical creatures—all while discussing the adventures (and misadventures!) of Harry, Ron, and Hermione.

Each week, we'll explore thrilling chapters, debate theories, and tackle fun activities like potion-making challenges, secret code puzzles, and a Hogwarts trivia showdown. Will we uncover the truth behind the whispers in the walls before it's too late? Join us for an enchanting journey full of magic, mystery, and plenty of fun!

***TAUGHT BY... LAF's own Mr. Cleary

Intro to Coding and Robotics (WED AM)

Students will use their new Scratch coding skills to design amazing projects and new creations. Kids will also have the chance to work with Marty the Robot purchased through the C.E.F. grant.

***TAUGHT BY... LAF's own Mrs. Cifrodella

Spa Day (WED AM)

Welcome to Spa Day, where pampering meets pure fun! If you love spending hours at Sephora testing face masks, spritzing perfumes, and swatching every lip gloss, this is the ultimate after-school adventure for you.

***TAUGHT BY... LAF's own Mrs. Gangaware

Spring Season Themed Arts and Crafts (WED AM)

Let's do some early morning Arts and Crafts! Studies have shown that engaging in creative practices in the morning helps to reduce stress. Students in this session will practice a variety of techniques as we explore Spring scenes through painting, drawing, and even collage! Students in Arts and Crafts will use materials such as oil pastels, markers, watercolor paint, painted paper, and so much more. De-stress, celebrate the Spring beauty, and get creative!

***TAUGHT BY... LAF's Art Teacher, Mary Paulson

Child and Babysitting Safety (WED PM).

***4th & 5th ONLY**

Students will learn young people safety and first aid procedures for young children. Students will also learn caring for kids and their basic needs such as meeting the family, handling a medical emergency while babysitting, etc. This is a CABS certification course.

Students would receive a book and upon completion of the course receive a CABS certification which should be renewed every 2 years.

***TAUGHT BY... A member of Chatham Emergency Squad and CMS' own Mrs. Clark

Cool Letter & Personalized Signs (WED PM)

Are you looking for a unique and artistic way to spruce up the walls and doors of your bedroom? Students will learn how to write with a variety of decorative lettering styles. Then, using colorful and interesting papers and markers, they can create fun signs and posters for themselves!

***TAUGHT BY... LAF's own Ms. Collette

Finance Fundamentals (WED PM)

***4th & 5th ONLY**

This class introduces 4th and 5th graders to the basics of money management, including budgeting, saving, earning, and spending responsibly. Through interactive lessons and hands-on activities, students will learn how to make smart financial choices, the importance of saving, and how to manage money in a way that aligns with their goals.

Class centered around Banzai, a free interactive personal finance website that offers lessons and simulations around budgeting, savings, and credit. It includes a series of games and scenarios that simulate real-world financial decisions. The focus of the online platform is focused on running a lemonade stand where students save money, hire workers, consider investments, and work on increasing their profits.

***TAUGHT BY... CHS' Social Studies Teacher, Kirstyn Connors

Flag Football (WED PM)

Get ready to run, catch, and score! This high-energy, action-packed Flag Football is perfect for players who want to learn the fundamentals of football in a fun, fast-paced, and non-contact environment.

Players will develop skills in passing, catching, route running, teamwork, and strategy while engaging in exciting drills and scrimmages. Each session will focus on a new skill, culminating in weekly games where players can put their moves to the test.

***TAUGHT BY... CMS's Gym Coach, Coach Maz

I Survived Book Club – An Exciting Journey Through History! (WED PM) ***4th & 5th ONLY**

Step into the past and experience history like never before! In this interactive book club, we'll dive into thrilling stories from the I Survived series, exploring real-life historical events through the eyes of young survivors. Each week, we'll read, discuss, and uncover fascinating facts about disasters, battles, and pivotal moments in history.

But that's not all! Get ready for hands-on activities, games, and challenges that bring history to life. Whether you're escaping the Great Chicago Fire, facing the sinking of the Titanic, or surviving a shark attack, you'll build critical thinking skills, learn incredible historical facts, and have fun along the way.

If you love adventure, storytelling, and discovering the past, this is the club for you! Come read, explore, and see if you could survive history's greatest moments.

***TAUGHT BY... CHS's Social Studies Teacher, Ms. Kosch

NASA Stem (WED PM)

Explore the mysteries of outer space science with fun projects every week. Students will visit the Star Lab, build a space shelter, learn about the space station, and much more!

MUST BRING SDOC CHROMEBOOK TO CLASS

***TAUGHT BY... LAF's own Mrs. Cifrodella

Readers Theater (WED PM)

Step into the spotlight with Reader's Theater, where stories come to life through dramatic reading and performance! Students will explore their creativity and build confidence as they work together to perform short scripts adapted from popular books and stories.

Each week, participants will focus on voice projection, expression, and teamwork while learning how to bring characters and scenes to life—no memorization required! Perfect for young readers and budding actors alike, fostering a love for storytelling and performance in a fun, supportive environment.

***TAUGHT BY... Jill Mills, Media Specialist at Franklin Elementary School, Summit

SEW WHAT! (WED PM)

***4th & 5th ONLY**

A back-to-basics sewing class focused on developing practical sewing skills including: safety around sewing tools/equipment; knowledge of sewing tools/notions and sewing terminology; learning skills such as sewing on a button and fixing a hem or rip and decorating with embroidery stitches; introduction to the sewing machine. This class will focus primarily on hand-sewing skills with a little exposure to sewing on a machine.

***TAUGHT BY...CMS' own Ms. Macintosh-Haye, Child Study Team

American Sign Language (THURS PM)

Sign, Chat, and Connect! 🙌🌟"

Join our After-School ASL Class for a fun and interactive way to learn American Sign Language! Whether you're a beginner or already know some signs, this class will help you build skills, make new friends, and express yourself in a whole new way. You'll learn the ABCs, animals, basic greetings, and more through games, hands-on activities, and plenty of laughs. Plus, High School ASL 3/4 students will be there to assist, making learning even more engaging and exciting! Let's sign, chat, and have a blast.

****This is a 5 Week Course.**

***TAUGHT BY... CHS American Sign Language Teacher, Ms. Woods

Argument & Debate (THURS PM)

***4th & 5th ONLY**

Learn to develop oracy and written communication skills. Students will develop effective tools for research and organization while using green screen technology to bring their presentations (opinion pieces or news reports) to life!

****This is a 5 Week Course.**

***TAUGHT BY... LAF's own Mrs. Cifrodella

Cooking (TUES PM)

***4th & 5th ONLY**

Learn how to follow a recipe, measure ingredients, and use your creativity to cook different recipes! In this class, students will make different treats each week. Students will receive a recipe book at the end of the 6 weeks so that they can make them again for their families!

****This is a 5 Week Course.**

***TAUGHT BY... LAF's own Ms. Goodstein

Crafting Club (THURS PM)

This class would focus on hands-on crafting activities. Each week, students will engage in a small project that allows them to express themselves artistically. Class will have the ability to try watercolors, clay modeling, bracelet making, paper bag puppets, etc.

****This is a 5 Week Course.**

***TAUGHT BY... CHS' Social Studies Teacher, Kirstyn Connors

Pickleball (THURS PM)

Pickleball combines elements of Tennis, Badminton, and Ping Pong. Discover how to hold the paddle, rally, serve, and score small sided games as we learn how to play this fun game, learning different skills and strategies in a safe and fun environment. We will provide all equipment.

****This is a 5 Week Course.**

***TAUGHT BY... Chris Calveley from FC Futbol Foundation

Spa Day FUN! (THURS PM)

Do you love to experiment with face masks, creams, and spa treatments? Learn how to create an environment of relaxation while we pamper ourselves. We will try our hand at mixing up some homemade all-natural products and methods. We will also add some color with nail polish and decor and try out some fun hair braiding and styling. Come join us for some spa day fun!

****This is a 5 Week Course.**

***TAUGHT BY... LAF's Own Ms. Collette

STEM Vinyl Visions & Pressed Creations (THURS PM)

Embark on a dynamic journey through the realms of STEM where students will harness the power of creativity and technology to design custom stickers and apparel. Through hands-on exploration with a vinyl cutter and heat press, participants will learn the fundamentals of graphic design and manufacturing while unleashing their artistic vision. From crafting personalized stickers to imprinting vibrant designs onto shirts and bags, students will develop essential skills in digital fabrication, problem-solving, and entrepreneurial thinking. Join us as we transform ordinary materials into extraordinary creations, igniting a passion for innovation and expression along the way!

****MUST BRING SDOC CHROMEBOOK TO CLASS****

****This is a 5 Week Course.**

***TAUGHT BY... CHS' Design & Technology, FTC Robotics Advisor, Julianna Ryan
